

AD-HOC MESSAGE

Cooperation LPKF – Mania has been settled

Today the cooperation which was agreed upon in December last year has been signed. The first stage of the common development of a laser system for precision production of flexible circuits is planned to be finished in spring. Mania, responsible for the world-wide marketing, forecasts a turnover of 100 Mio Euro for the next five years, according to the chairman of the board of directors, Mr. Paul Mang.

Both companies stated their intention to examine further projects for cooperation and to make use of the synergy effects.
