

Approved **THERMOSET** plastics for Laser Direct Structuring (LDS) with LPKF laser systems.

THERMOSET materials			
Type	Company	Grade Name	Mold Process
EMC	Sumitomo Bakelite	SUMIKON® EME-L series	CMPR, TRSF
		EM-L series	INJCT
	Shin-Etsu	KMC-9200	CMPR, TRSF

These materials were approved in cooperation between the compound suppliers and LPKF in terms of reliability, plating performance, copper adhesion strength.

CMPR - compression mold

TRSF - transfer mold

INJCT - injection mold

For further information regarding LDS approved materials, please contact your local compound supply agent or a LPKF staff member.
